Dear Parents,

If you have a child in primary or post primary education, NPC would like to give you the opportunity to share your views on Transition Year (TY).

TY is a one-year programme that forms the first year of a three-year senior cycle. It is designed to act as a bridge between the junior cycle and leaving certificate programme and it is available to all second level schools.

You can take the survey with this link: [Survey Link](#)

Your input is important and can help shape the future of the TY programme. Your responses will remain anonymous and will be used to inform the NPC submission to the National Council for Curriculum and Assessment (NCCA).

Your insights and feedback are greatly valued. By sharing your experiences and thoughts about Transition Year, you can contribute to the ongoing improvement of the education system.

Thank you for taking the time to participate in this survey and for your commitment to your child's education.
